Professional Summary

BCA graduate with professional experience in data entry, documentation, record maintenance, and operational reporting. Skilled in Microsoft Office applications, data accuracy, document verification, and Excel-based reporting, with exposure to SAP S/4HANA. Uses AI tools such as Claude, ChatGPT, and Gemini to improve productivity, drafting, and data work. Seeking an office administration, documentation, or data management role at NHAI, offering strong organizational skills, administrative support, attention to detail, and a commitment to accurate and timely work.

Work Experience

MIS Executive (DEO) November 2025 – Present
Welspun Living Ltd. / Welspun World, Anjar, Gujarat

- Maintain accurate operational records, digital documentation, and structured data while ensuring data integrity and consistency.
- Prepare and update Excel-based reports and spreadsheets to support daily operational activities.
- Handle excise documentation and maintain records in accordance with applicable documentation procedures.
- Support production, inventory, and material movement record management.
- Perform data validation, verify entries, identify discrepancies, and support timely correction of records.
- Apply record-keeping practices, document organization, and deadline management to daily tasks.
- Coordinate operational information and maintain organized documentation for efficient workflows.
- Develop knowledge of SAP S/4HANA modules, including Materials Management (MM), Production Planning (PP), and Sales and Distribution (SD).
- Use AI tools (Claude, ChatGPT, Gemini) to draft and refine documents, and to get help with Excel formulas and report preparation.

Internship

Data Science Intern March 2024 – April 2024
Cranes Varsity, Bangalore

- Gained exposure to data preprocessing, exploratory data analysis, and machine learning fundamentals.
- Studied regression, classification, and model evaluation using structured datasets and Python tools.

Education

Bachelor of Computer Applications (BCA) 2021 – 2024
Bengaluru City University GPA: 8.87/10.0

Class XII – Uttar Pradesh Board 2020 – 2021
Percentage: 78%

Class X – Uttar Pradesh Board 2018 – 2019
Percentage: 80%

Technical Skills

Office Applications: Microsoft Excel, Microsoft Word, Microsoft PowerPoint
Office Operations: Data Entry, Office Documentation, Record Keeping, File Management, Document Verification
Reporting and Data Management: Excel-Based Reporting, Data Validation, Spreadsheet Management, SQL, Power BI
ERP and Business Processes: SAP S/4HANA (Learning), SAP MM, Logistics Management
AI Tools: Claude, ChatGPT, Gemini (prompt writing, document drafting, summarization, Excel/SQL/Python assistance)
Programming: Python, Java, C Programming, Data Structures
Technical Knowledge: Machine Learning Fundamentals

Administrative and Professional Skills

Administrative Support, Document Control, Digital Record Management, Report Preparation, File Tracking, Data Accuracy, Attention to Detail, Time Management, Team Coordination, Problem-Solving, Confidentiality, Dependability, Written Communication, and Willingness to Learn.

Projects

Insurance Cost Prediction Using Linear Regression

- Developed a machine learning project to estimate insurance costs using customer attributes such as age, gender, BMI, dependents, smoking habits, and region.
- Analyzed factors affecting insurance charges and applied regression concepts to build a predictive model.
